Puppy & Sapling

GAIN Puppy and Sapling is a complete diet formulated specifically for growing greyhounds, pregnant and lactating bitches.

GAIN
GREYHOUND NUTRITION

Key features

✓ Formulation

It is the first greyhound rearing diet to combine the best Irish, UK and US nutrition expertise.

✓ State of the Art Manufacturing Process

Gain Puppy & Sapling is produced in the top American dog feed factory, which is rated world no.1 for consistent quality ingredients and manufacturing technology.

✓ Protein Source

The inclusion of high quality protein from chicken, fish, eggs, gluten meal and skim milk, ensuring the correct amino acid balance for development and strength.

✓ Maintenance of Lean Muscle Mass

Development of lean muscle mass is helped by the inclusion of L-Carnitine, due to its role in reducing the deposition of body fat.

✓ Optimum Energy Supply

An optimum energy supply is maintained by the inclusion of brewers rice, maize, chicken fat and canola oil, which helps promote slow controlled growth up to maturity.

✓ Gastrointestinal Health

The inclusion of brewers yeast, FOS and pulp helps promote a healthy digestive system. The exclusion of wheat and soya helps increase digestibility and reduces the risk of digestive upsets.

✓ Healthy Skin & Coat

Flaxseed, fish and canola oil are included to help maintain the correct Omega-6 to Omega-3 ratio, which helps skin, coat, brain and vision development.

✓ Strong Immune System

High levels of Vitamin E and other antioxidants help to develop a strong natural immunity.

✓ Chelated Minerals and Essential Vitamins

The inclusion of a scientific balance of high quality chelated minerals and essential vitamins in Gain Puppy & Sapling is critical for optimum growth and development.

✓ Skeletal Growth

The inclusion of TruCal (Gain's unique source of highly available natural milk calcium) and skim milk help promote strong bones and teeth.

✓ Joint Mobility

Glucosamine and Chondroitin are included to help develop good joint mobility.

✓ Low Ash Level

The patented low-ash manufacturing process increases digestibility and helps eliminate kidney problems.

✓ Odour Control

Natural plant extracts are added to help control unpleasant dog odours.

✓ Natural Preservatives

This product is naturally preserved, with no artificial colours, flavours or preservatives.

✓ Palatability

It is extremely palatable due to the unique combination of ingredients and its manufacturing process.

✓ Ingredient Declaration

Gain Puppy & Sapling is the first greyhound rearing diet to declare the full list of its ingredients chelated minerals and essential vitamins in Gain Puppy & Sapling is critical for optimum growth and development.
